## Part 1: News and Infos

### 1. New Russian OTH radar

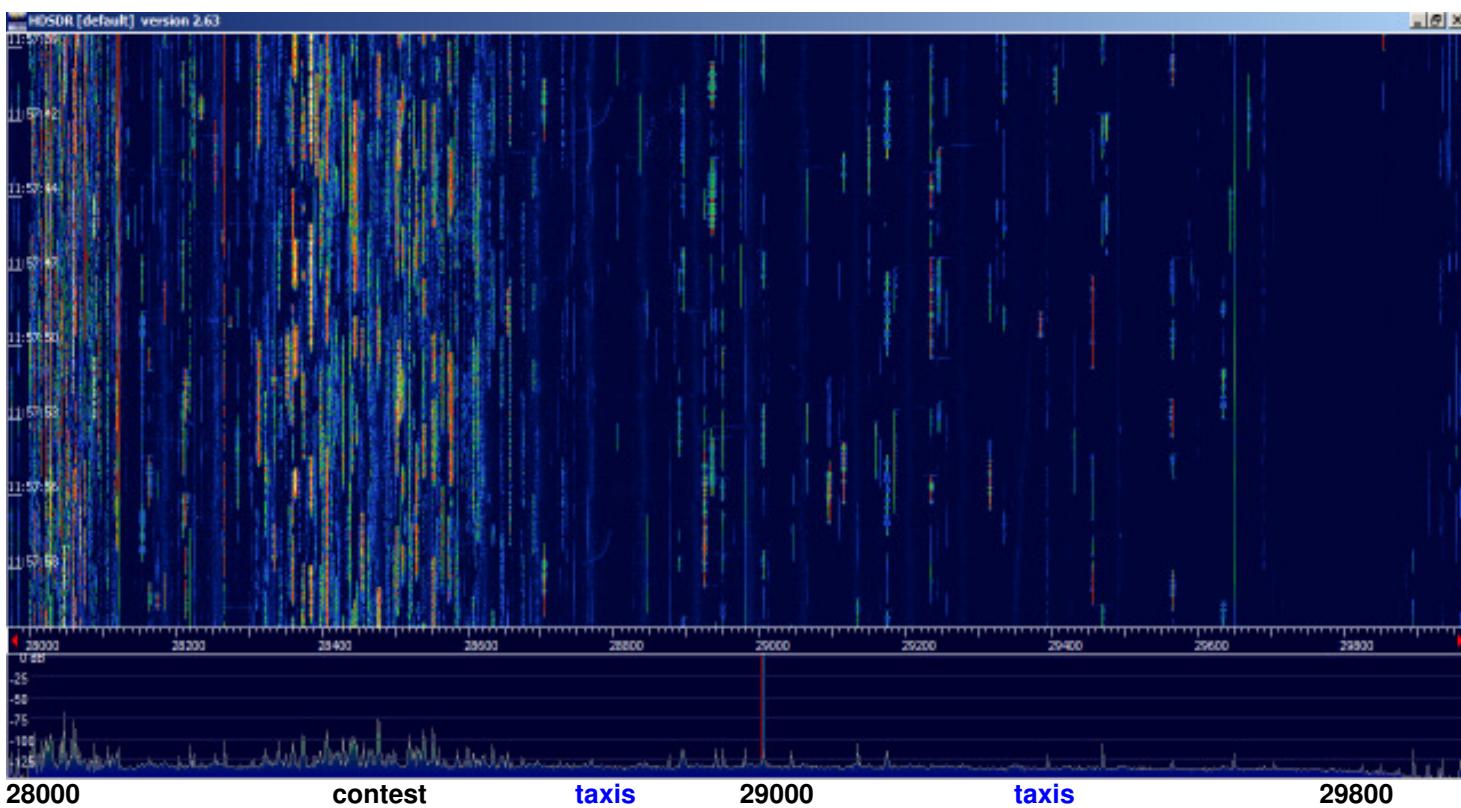

A new Russian OTH radar appeared on 14 MHz. Parameters: 10 sps and 10 kHz wide, often jumping. Location: Nizhny Novgorod. Screenshot: DK2OM with W-Code - showing the oscilloscope analysis.

Soundfile: <http://www.iarums-r1.org/iarums/sound/14305rus.wav> Recording by DK2OM!

### 2. CIS taxis – worse as ever before

Screenshot with HDSDR (DK2OM) on Dec. 15<sup>th</sup>. Contest traffic between 28000 and 28550 kHz and above many CIS taxis.

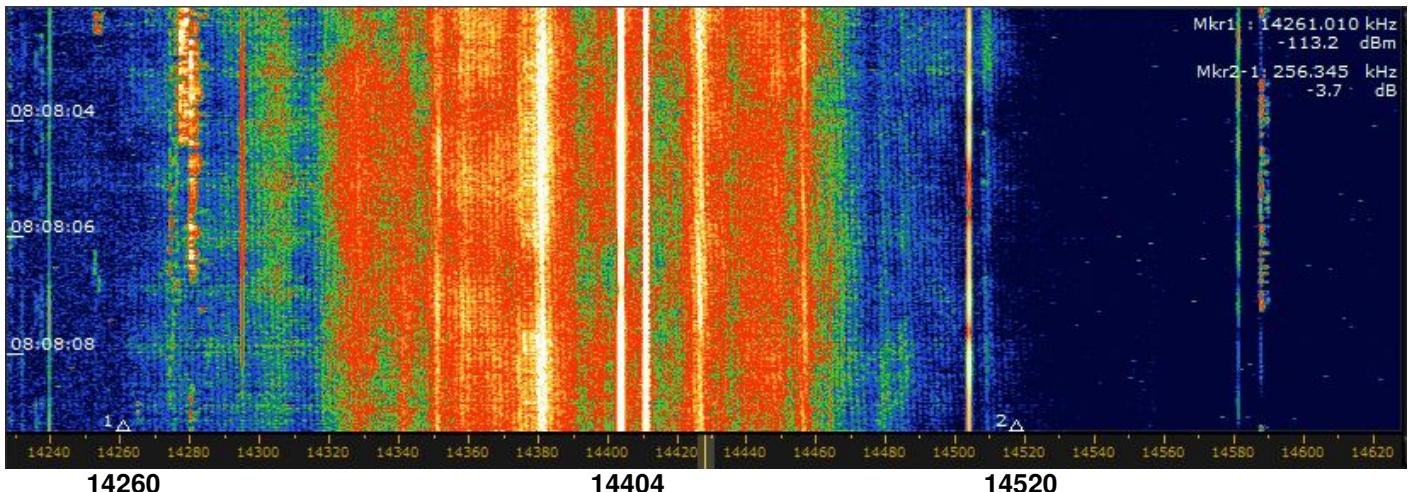

### **3. Fishery traffic on our bands as usual**

Fishery traffic every morning and evening on 3500 – 3550, 10101, 10120, 10125, 10130, 10131 and 10133 kHz on USB: Involved: Fishermen from France, Spain, Netherlands, Great Britain and Morocco. No callsigns, only names and sometimes very obscene. The Spanish fishermen used the vocoder CRY 2001 on 7000 and 3570 kHz from time to time. My DX-Cluster entries were not observed.

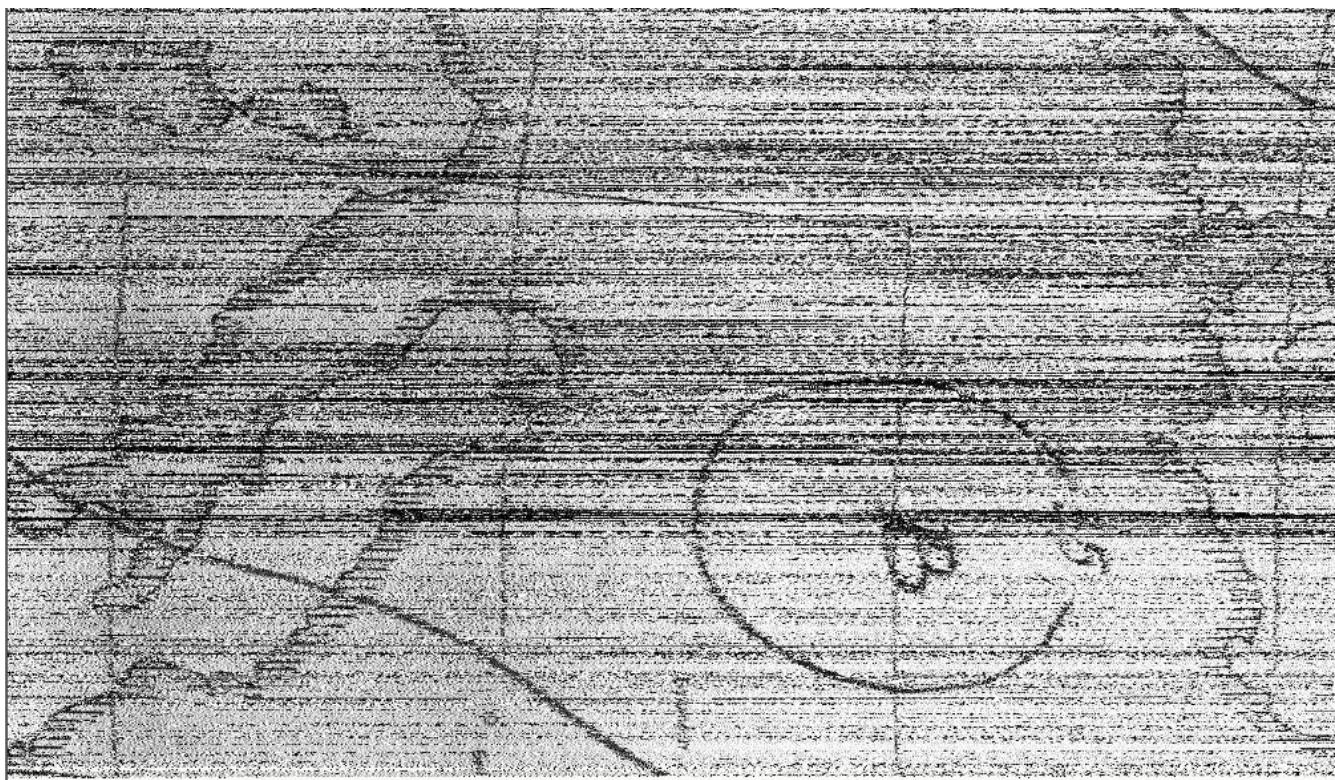

### **4. Noise floor on 14 MHz caused by a Russian F1B**

A Russian broken F1B on 14404 kHz caused strong interference between 14260 and 14350 on several days.

### **5. WX-Fax from Sevastopol on 7090.0 kHz on Dec. 9<sup>th</sup>**

DK2OM found a WX-Fax transmission on 7090.0 kHz. Parameters: 60 rpm – IOC 576 – operated by an old fax-machine. The fax showed the Mediterranean Region, the Black Sea and kyrilic letters. Similar transmissions were observed in 2009. Location: Sevastopol - Ukraine. The screenshot shows a small part!

### **7. A happy and prosperous year 2014 to all our members and friends!**

## Part 2: Detailed reports of the national Co-ordinators

DD = day \*\*\* MM = month \*\*\* dly = daily \*\*\* vt = various times \*\*\* vd = various days \*\*\* BD = Baud \*\*\* SH = shift \*\*\* SP = spacing \*\*\* Mode = mode of transmission \*\*\* A3E = AM \*\*\* A1A = CW \*\*\* J3E-U = USB \*\*\* J3E-L = LSB \*\*\* FSK (F1B) = frequency shift keying \*\*\* PSK = phase shift keying \*\*\* OFDM = orthogonal frequency division multiplex  
 ALE (MIL-188-141A) = automatic link establishment \*\*\* MUX = multiplex \*\*\* Ui (unid) = unidentified \*\*\* Illicit = illegal \*\*\*  
 UiILL = unidentified illegal \*\*\* BC = broadcast \*\*\* MIL = military \*\*\* PTR = printer \*\*\* NGO = non governmental organization \*\*\* ITU = ITU country abbreviation \*\*\* PRC = People's Republic of China \*\*\* PLA = People's Liberation Army \*\*\* MFA = Ministry of Foreign Affairs \*\*\* MOI = Ministry of Interior \*\*\* MOPO = Ministry of Public Order \*\*\* IARUMS = IARU Monitoring System \*\*\* UTC = Universal Time Coordinated \*\*\* pps = pulses per second (earlier radar systems) \*\*\*  
 sps = sweeps/sec (radar systems) \*\*\* FMCW = frequency modulated continuous wave (OTH and coastal Radars)  
 5BL = cyrillic 5 lettergroups

### ARSK MONITORING OVERVIEW FOR DECEMBER 2013

Most listening this month took place at Kilifi on the coast, but very little was observed and propagation appeared to have deteriorated. The broadcast station at Hargeisha, Somaliland, on 7120 kHz was heard daily, but Kampala on 7195 was not. Whether it has departed the frequency or was too weak to be heard is unknown.

E.H.M. Alleyne, 5Z4NU

\*\*\*\*\*

#### ARSK – Kenya – 5Z4NU (Ted)

#### DARC 1 – Germany – DG0JBJ (Mario) – OTH radar intruder

DG0JBJ (Mario) observed 94 OTH radars on 20 m, 77 OTH radars on 15 m and 99 OTH radars on 10 m in December 2013. Russian OTH radars are active again on 20 m!

#### DARC 2 – Germany - DK2OM (Wolf)

FSK transmissions -> center frequency between mark and space

PSK transmissions -> center frequency - ALE (MIL188-141A) -> USB frequency

exclusive bands -> black – shared bands -> blue - voice traffic -> green - BC -> red

SH = shift --- SP = spread (radar) – SPS = sweeps/sec (radar)
